

Child Safe Organisation Framework for Child Side School

Child Side School recognises that in order to provide a Child Safe Organisation, children are valued and our commitment to protecting children is embedded in our culture and responsibility for taking action is understood and accepted at all levels of our organisation. Child Side School deliberately and systematically works to

- create an environment where children's safety and wellbeing is the centre of thought, values and actions
- place emphasis on genuine engagement with, and valuing of children
- create conditions that reduce the likelihood of harm to children and young people
- create conditions that increase the likelihood of identifying any harm
- respond to any concerns, disclosures, allegations or suspicions.

In reviewing and reflecting on how we are providing and building a Child Safe and Friendly Organisation we consider the following ten principles as recommended in the National Principles for Child Safe Organisations:

1. Child safety and wellbeing is embedded in organisational leadership, governance and culture.
2. Children and young people are informed about their rights, participate in decisions affecting them and are taken seriously.
3. Families and communities are informed and involved in promoting child safety and wellbeing.
4. Equity is upheld and diverse needs respected in policy and practice.
5. People working with children and young people are suitable and supported to reflect child safety and wellbeing values in practice.
6. Processes to respond to complaints and concerns are child focused.

7. Staff and volunteers are equipped with the knowledge, skills and awareness to keep children and young people safe through ongoing education and training.
8. Physical and online environments promote safety and wellbeing while minimising the opportunity for children and young people to be harmed.
9. Implementation of the national child safe principles is regularly reviewed and improved.
10. Policies and procedures document how the organisation is safe for children and young people.

The following measures are being implemented across the whole school to ensure that Child Side School is a Safe and Friendly Organisation for Children.

<p>Principle 1. Child safety and wellbeing is embedded in organisational Leadership, governance and culture</p> <ul style="list-style-type: none"> • Child safe and friendly culture practices and beliefs articulated in Child Side documentation eg Staff and Parent Information Packages • Child Side culture and approach highlights that 'children and adults have equal dignities but different knowledges and that respect is earned' – the reason that all staff and children are referred to by their Christian names (the Leadership Team) make sure that they explain this carefully to all new staff, prospective families, new families, 	<p>Principle 2.
