The following information will assist you understand your responsibilities to this commitment.

At Child Side Playgroup and School, we believe that a child safe environment is vital to ensure the safety and wellbeing of children and must remain of paramount consideration in all that we do and the decisions that we make.

This commitment is demonstrated through the implementation and annual review of the 'Child Safe Organisation Framework for Child Side School' (National Child Safe Organisation Principles). This document is tabled and discussed as a part of the Governing Council Annual Calendar.

CSS integrates the 'Keeping Safe Child Protection Curriculum' within the Child Side Curriculum, with consideration for age and developmental-stages and cultural appropriateness. This curriculum includes prevention, early detection, intervention and, promotes protective behaviours to build practical self-protective skills and strategies for all children. This curriculum also includes e-safety education.

This Child Protection Advice has been provided to ensure that you understand what is expected of you. Please ask a Co-principal if you are unclear about anything, and keep this information, so that you can refer back if you need to.

**If you are worried about the safety or welfare of any child or young person in this school, you must report this concern to one of the identified designated Staff. Questions, clarifications and concerns should always be brought forward and will be treated with discretion, empathy and respect. ## What should I do if a child discloses that they are being harmed?

Although the likelihood of you being subject to a disclosure is small, it is important to know what to do in such an eventuality as children rarely lie about such matters.

- Listen to what is being said without displaying shock or disbelief, accept what is being said
- Allow the child to talk freely
- Reassure the child, but do not make promises that might not be possible to keep
- Do not promise confidentiality but explain to the child that you may have to tell an Educator or a Co-Principals in order that they can provide appropriate help
- Do not interrogate the child or ask leading questions
- Reassure the child that it is not their fault
- Stress that it was the right thing to tell
- Do not ask the child to write a statement
- Do not criticise or make comment about the alleged perpetrator

Immediately record details of the disclosure, including wherever possible the exact words or phrases used by the child. Forms for the recording of information of this nature are available and should be completed and returned to a designated staff member to enable the matter to be dealt with in the most appropriate way.

**Please ensure you have signed and dated the record. Understand that what has been disclosed is confidential and should not be shared with anyone else other than the person you are reporting to.**

## What should I do if the alleged abuser is a member of the school staff?

You should report such allegations to one of the designated staff.

## What should I do if the alleged abuser is the Principal?

You should report such allegations to the Chair of the Governing Council

## **How do I ensure that my behaviour is always appropriate?**

Appropriate relationships with children should be based on mutual trust and respect.

As a Parent/guardian visiting the school regularly you may well be working closely and or helping children sometimes on a one-to-one basis. Children, especially when they are young, are often spontaneously affectionate and tactile and it is important not to alienate them through lack of response or by appearing to reject this. You should, however, be careful about touching other people's children.

Unless there is a well-established familial relationship and these arrangements have been established and understood by the child's/children's parents/guardian do not:

- Photograph or video children (other than your own) at school or at school activities.
- Give out your own personal details, exchange e-mails, exchange text messages, contact them via social media sites, make phone calls or personally visit other children.

**Questions, clarifications and concerns should always be brought forward and will be treated with discretion, empathy and respect.**

**Thank you for helping us to safeguard the children in our care by following these guidelines.**
